

## Accident Free Incentive Program

At *(enter your company's name here)*, safety is our top priority, to promote overall safety awareness and reward our employees for their efforts towards working accident free, we have implemented a Safety Rewards Program. All regular full time and part time employees are eligible.

### HOW THE PROGRAM WORKS:

When the company reaches 180 days accident free, all employees will be rewarded with a \$10.00 gift card to a local retailer. *(Note: If you are just implementing this, you may want to try a smaller time frame to start – like 90 days.)*

In addition, when the company reaches 360 days accident free, all employees will be rewarded with a \$100.00 gift card to a local retailer of their choice (3 choices will be provided).

After 360 days accident free, the program will continue based on the 180/360 days rewards program as described above so everyone can continue to benefit from the program.

Remember all accidents are preventable!
